DETAILED ACTION

Drawings

1. Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.
2. New formal replacements drawings **are now required** responsive to this Office action.

Information Disclosure Statement

3. The information disclosure statement filed September 21, 2006 has been entered and considered. An initialed copy of the PTO-1449 by the Examiner is attached.

Priority

4. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

5. Claims 1-38 are allowed.

Examiner's Reasons for Allowance

6. The following is an examiner's statement of reasons for allowance:
7. The prior art fails to render obvious the claimed method and/or portable single platform geolocation system for determining a Doppler measurement set of a target of interest including, inter alia, providing an electronic warfare aircraft having an aircraft expendables technology device on-board, performing an initial frequency measurement of the target of interest via the electronic warfare aircraft, tuning and programming a receiver in the aircraft expendables technology device based on the initial frequency measurement of the target of interest, ejecting the aircraft expendables technology device from the electronic warfare aircraft into airspace, determining a Doppler measurement set on the target of interest by the aircraft expendables technology device, and transmitting the Doppler measurement set of the target of interest from the aircraft expendables technology device to the electronic warfare aircraft as operatively interconnected and functionally claimed. Clearly the prior art does not provide for the claimed system.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited prior art show various electronic warfare platforms, devices, and systems.
9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to John B. Sotomayor whose telephone number is 571-272-6978. The examiner can normally be reached on Monday to Friday from 8:30AM to 5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom H. Tarcza, can be reached on 571-272-6979. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
